

Rockwell Parts

Rockwell Part - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working in an atmosphere that encourages the utmost integrity with empowered teamwork, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious business and providing a safe environment for their staff to work in. Moreover, they have applied numerous programs in the organization to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are happy to share and promote this policy with a greater knowledge of their efforts. They are really committed to improving and preserving the surroundings. AxleTech has an EHS program which not just protects the environment but which even actively protects their staff and neighbors too.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, which may include anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech particularly designs axles to be able to meet specific application demands. They have over one thousand various axle specs within their existing offering. With more than one hundred years of skill and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in several commercial and military applications. They offer complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle needs for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product collection.
